## Skills

React.js, Redux, JavaScript, Express.js, HTML5, CSS3, PostgreSQL, Python, SQLAlchemy, Flask, AWS, Heroku

## Projects

### AirBnb Clone

[live site](#) | [github](#)

JavaScript, Express.js, React, Redux, HTML5, CSS3, Node.js

Database: *SQLite*

- Designed a JavaScript backend to communicate with Express and Sequelize to render my site
- Used backend validation routes in order to control user action
- Built components that only certain authorized users could see
- These actions limited users from reviewing and booking their own listings

### Yelp Clone

[live site](#) | [github](#)

JavaScript, React / Redux, Python, Flask, PostgreSQL and SQLite, CSS3, Heroku

*Designed a yelp clone for many types of businesses*

- Only authorized users are allowed to sign up and become business owners
- Only the author of each review can edit or delete it.
- Implemented a search feature where you can filter by category, name, even location

### Reddit Clone

[live site](#) | [github](#)

JavaScript, React / Redux, Python, Flask, PostgreSQL and SQLite, CSS3, Heroku

*Designed a reddit clone with a weeaboo themed twist*

- Dove into the theme headfirst and used appropriate colors for styling
- Implemented both a navigation bar and footer that will always show on the page
- Created modals for each element of a feature to make it easier on any user's eyes

## Experience

**Counseling Program Associate** | November 2019 - March 2022

7EDU Impact Academy: Full-Time

- Responsible for the college application section of the company
- Streamlined the workflow of the program using many technologies, such as Asana, Trello, Google Drive
- Provided all students under pressure with the assistance they needed in time sensitive situations

**Sales Floor and Cashier** | June 2017 - September 2017

Target: Seasonal

- Oversaw the technology section in the back of store and helped guests with any needs
- Assisted guests with checkout and signed them up for Target Red Card rewards when applicable

## Education

**App Academy** | April - November 2022 | Remote

Immersive software development course with focus on full stack web development

**University of California, Santa Barbara** | Spring 2019 | Santa Barbara, CA

Bachelor of Arts in Global Studies
